# NO SUBSTITUTE FOR PRINT

*Your website needs to be impressive. Your search and social performances need to be on their A game.*

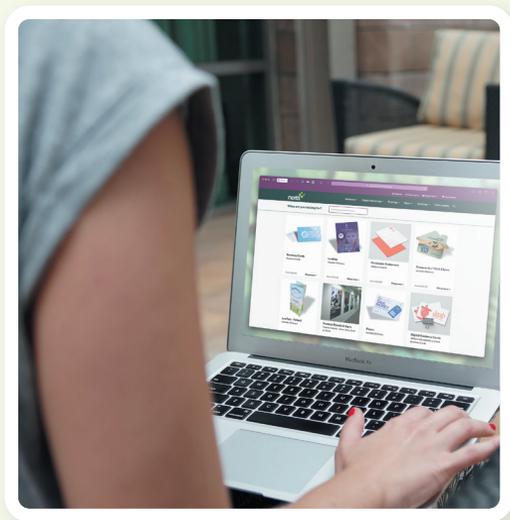

But brands don't just focus everything online. They combine their online presence with offline marketing. While inboxes are overwhelmed, we know print still works.

Print and direct mail are proven to build trust. It's perceived to be more credible. It plays with emotions. Appeals to multiple senses. There's nothing like it.

In 2024, warm direct mail in the UK saw a 7.9% response rate. And 70% of UK consumers say direct mail feels more personal than email.

And you can exploit that power, very cost-effectively. Turn the pages to explore print marketing ideas that cut through the digital clutter.

## INSTANT ONLINE PRICES

*Sometimes too much choice is daunting.* That's why we've featured just a trio of options on each page. But, the truth is, we have **thousands** of options to choose from. So if you don't see what you're looking for – just ask!

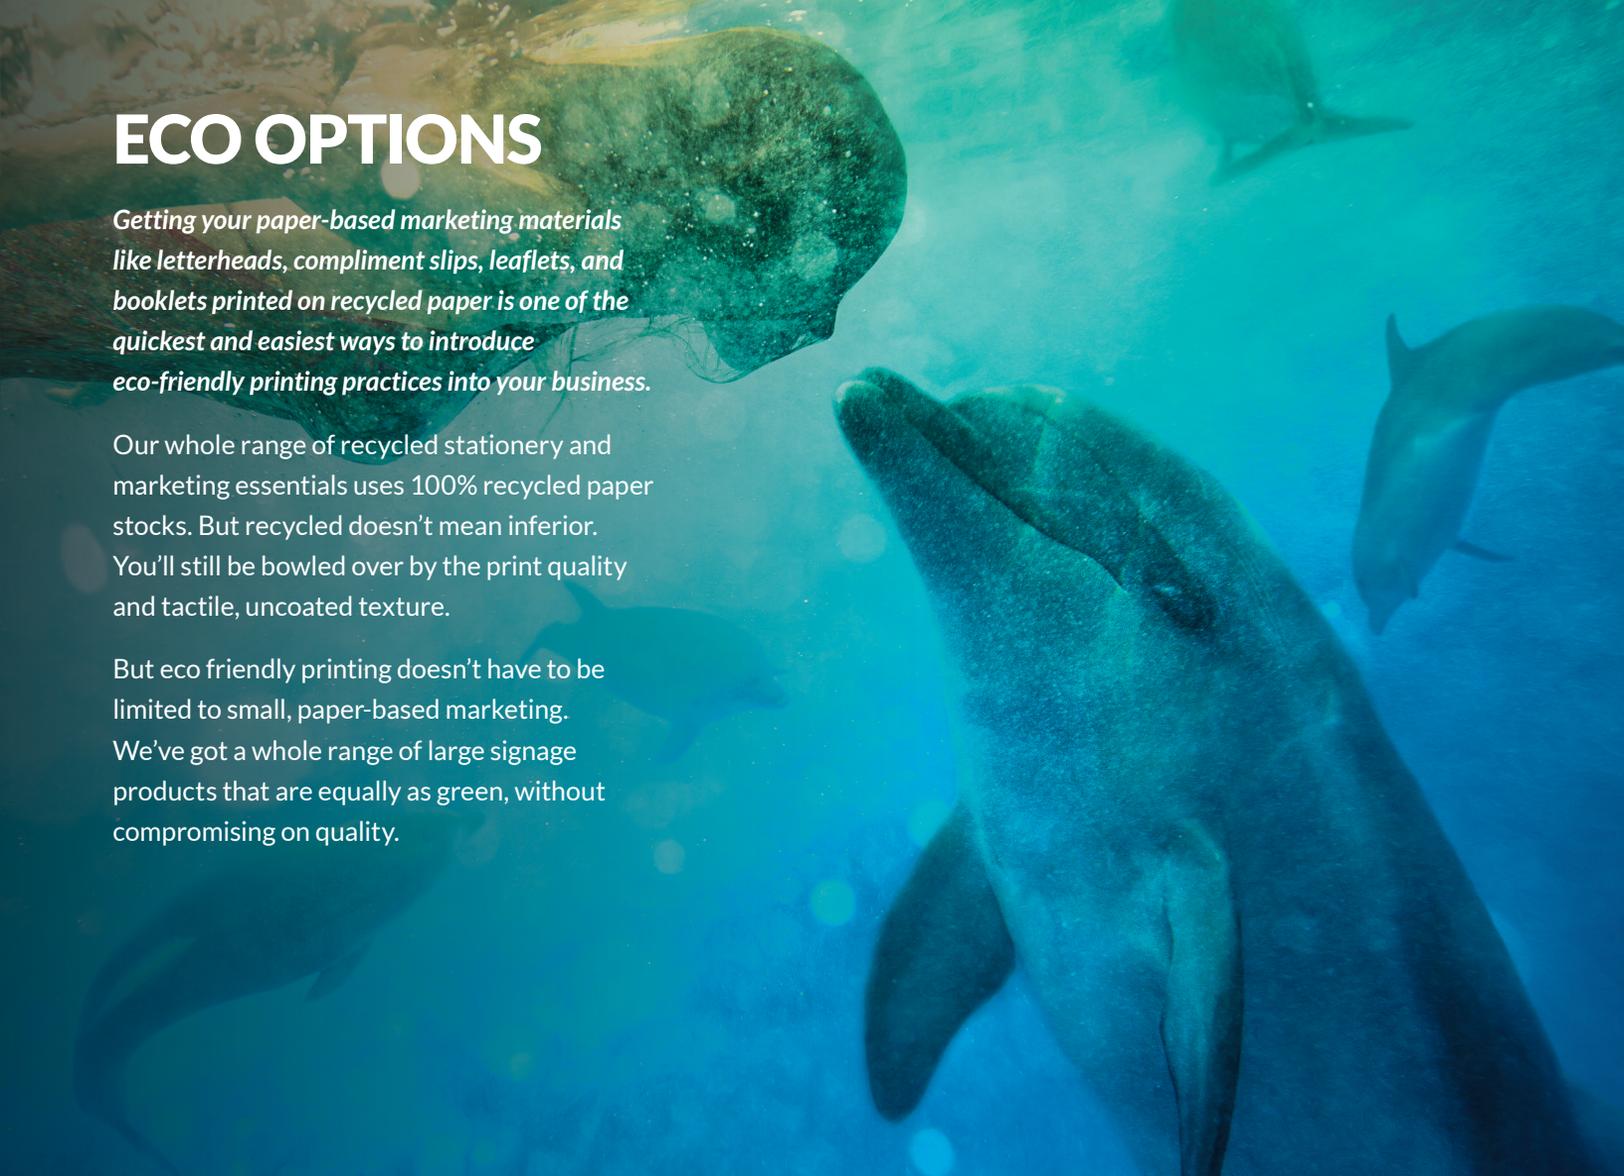

To see all options and prices, click on **Search Prices** at [www.nettl.com](http://www.nettl.com) then enter the product codes from this guide into the search bar.

# ECO OPTIONS

An underwater scene with a large, dark, textured rock in the upper left. Several sharks are swimming in the blue water. The lighting is dim, creating a moody atmosphere.

*Getting your paper-based marketing materials like letterheads, compliment slips, leaflets, and booklets printed on recycled paper is one of the quickest and easiest ways to introduce eco-friendly printing practices into your business.*

Our whole range of recycled stationery and marketing essentials uses 100% recycled paper stocks. But recycled doesn't mean inferior. You'll still be bowled over by the print quality and tactile, uncoated texture.

But eco friendly printing doesn't have to be limited to small, paper-based marketing. We've got a whole range of large signage products that are equally as green, without compromising on quality.

# STATIONERY

*With uses like cover letters, quotes, invoices, proposals, menus, mailers and (boring video call) doodle sheets, printed Letterheads and Compliment Slips are among the most versatile pieces of personalised stationery that you can get.*

They're worth the investment, too. It makes all the difference when your clients receive professionally printed correspondence from your business. Get your logo printed in high definition full colour and complete the look with complementary colour blocks on the reverse or printed watermarks.

Either laser or inkjet print onto letterheads yourself. Or we can pre-print words for you.

It won't go unnoticed. 70%\* of consumers say receiving mail makes them feel more valued.
